

Water treatment

Water softening salt

Crystal Salt A

Zmitut Company is an authorized distributor of the Dead Sea Works Company.

Dead Sea Works is one of the world's largest producers of salt and its products and serves as a major supplier for industrial uses. Crystal salt A is a refined natural salt. The salt is designated to be used in processes that involve water. It is used mainly in industries such as laundries, dining rooms, catering kitchens, and more. The salt is edible and has many other purposes. It is marketed in different granularities: fine cooking salt, sea salt, softening salt, and crude salt.

* Available in a variety of packages

Granulometry (mm)	Chemical Analysis (%)
Fine Grade 0 - 0.8	NaCl 99.9
Coarse Grade 0.8 - 2	Mg ⁺⁺ 0.01
Granular Grade 1 - 4	Ca ⁺⁺ 0.01
	H ₂ O 0.05
