

Nutritional additives for livestock feed

Salt

Feeds, by their nature, have to be adapted to different livestock and their varying needs, and for this purpose, Zmitut supplies also clean salt that can be used as an additive to special feeds produced in feed mills.

The salt is edible and can be used for all feed purposes. It is marketed in different granular sizes: fine cooking salt, coarse salt, and crude salt.

* Available in all types of packaging.

Granulometry (mm)	Chemical Analysis (%)
Fine Grade 0 - 0.8	NaCl 99.9
Coarse Grade 0.8 - 2	Mg ⁺⁺ 0.01
Granular Grade 1 - 4	Ca ⁺⁺ 0.01
	H ₂ O 0.05
